BERKAY VURAN

Product Leader | Product Management, Strategy & Analytics

Ankara, Türkiye • +90 542 423 99 30 • hello@berkayvuran.com • berkayvuran.com • linkedin.com/in/berkayvuran • github.com/berkayvuran

SUMMARY

Product leader with 7+ years across AI, PropTech, telecom, and logistics: scaled platforms to 6M+ users, expanded operations into 230 countries across 3 continents, and drove 150% revenue growth. Currently leading Product Analysis for conversational AI serving 200+ enterprise customers, with hands-on focus on LLM-powered and agentic product experiences. Psychology-trained (M.A. in Organizational Behavior); PMP and Scrum.org certified.

EXPERIENCE

SESTEK Ankara, Türkiye

Conversational Intelligence Product Analysis Team Leader 12/2025 – Present

- Lead the Product Analysis team for SESTEK's Conversational Intelligence portfolio (200+ customers, 16 countries); set analytical standards and OKRs, and manage performance end-to-end through coaching, reviews and capability-based allocation.
- Drove team-wide AI adoption across the analysis lifecycle in 2026: monthly completed analyses **+70%**, delivered stories **+40% YoY**; AI-assisted templates made acceptance criteria **2x more detailed** and increased mockup coverage.
- Launched internal tools built by the product team: a privacy-preserving peer-feedback analysis tool that automates a **two-week manual review cycle**, plus RFP-response and hardware-sizing assistants for presales.
- Sponsored an AI-assisted documentation pipeline across release notes, knowledge base, enablement and field answers, clearing a months-long backlog in weeks, plus an internal AI workspace now used by consulting and other teams.

Lead Product Analyst 09/2024 – 12/2025

- Standardized product design practices as design Subject Matter Expert across multiple development teams; introduced Progressive Disclosure patterns in the Agentic CX dashboard, resolving data complexity for enterprise users.
- Authored 230+ user stories, features, and epics defining requirements and acceptance criteria across 8+ product modules, completing 220+ product analyses; conducted market and competitor analyses shaping product vision.
- Delivered product presentations to C-level executives and represented SESTEK at industry events.

Emlakjet İstanbul, Türkiye

Senior Product Manager & Scrum Master 10/2022 – 09/2024

- Catalyzed the Agile transformation of Türkiye's leading proptech platform as Scrum Master, fostering a culture of continuous improvement and cross-team collaboration.
- Spearheaded ML, NLP, and generative AI initiatives in the proptech domain; led anti-fraud solutions improving security for both B2B and B2C users.
- Optimized conversion (CRO), app store (ASO), and search (SEO) performance; directed R&D processes and led product development for Jettaşın (by Octovan), digitizing the moving process end-to-end.

Earlier Experience

Product Owner, Navlungo 01/2022 – 10/2022

Scaled platform to 70,000+ users and 1,000,000+ transactions across 230 countries, driving 150% sales growth; launched deliver.ist in 3 months.

Senior Business Analyst, Etiya 11/2021 – 01/2022

Key contributor to the CRM transformation of Ooredoo, the largest telecom in the MENA region.

Business Analyst & Product Owner, Turkish Ministry of Health 02/2019 – 11/2021

Architected ALO184 SABİM call-center infrastructure serving 6,000,000+ users annually; improved user satisfaction by 30%.
